EDUCATION

- Savitribai Phule Pune University** SPPU, Pune
Bachelor of Engineering (B.E.) Mechanical; CGPA: 8.02 JUN 2023

SKILLS SUMMARY

- **Backend:** Java 8, Spring Boot 3
- **Frontend:** Javascript, ReactJs, HTML5, CSS3
- **Database:** MySql, PLSQL
- **Tools:** Docker, Git, Github , Vercel

EXPERIENCE

- AI Variant** Remote
Software Developer Intern OCT2023 – DEC2023
 - : Developed a RESTful API using Spring Boot and Java 17, enhancing the backend functionality of product, which streamlined data processing and improved response time.
 - : Led a team of 6 interns, coordinating tasks and ensuring the timely completion of project milestones, while fostering a collaborative and productive working environment.
 - : Designed and optimized MySQL databases, ensuring efficient data storage and retrieval, which reduced query execution time by 20 percent and improved overall application performance.
 - : Implemented 5 new endpoints in the API, significantly expanding the functionality and providing enhanced capabilities for client applications.

PROJECTS

- User Verification - Phone and Email OTP Verification** JUL 2024
Vercel: <https://mobile-otp-verification-firebase.vercel.app/>
Vercel: <https://email-otp-verification-react.vercel.app/>
 - : Verified 50+ user email addresses using EmailJS for secure registration, ensuring accurate and reliable email validation in ReactJS.
 - : Engineered phone OTP verification leveraging Google Firebase for enhanced authentication, implementing a secure and user-friendly verification process.
 - : Integrated a 2-layer verification system combining email and phone OTP for robust security, providing comprehensive user authentication and User Verification.
 - : Deployed a seamless user verification process on Vercel, combining email and phone validation for over 50+ users.
- Chat Application** MAR 2024
GitHub: <https://github.com/shivabhujbal/Company-Social-Group.git>
 - : Executed role-based access control, allowing admins and users to manage, create and update group with 99 percent efficiency.
 - : Ensured application reliability and quality through rigorous unit testing with JUnit and API testing with Postman, reducing bugs and enhancing overall stability by 40 percent.
 - : finaced Java frameworks such as Spring Boot, Spring Data JPA, Hibernate, and JDBC for streamlined backend development, resulting in a 30 percent reduction in development time.
 - : Administered database indexing and query optimization, resulting in a 50 percent improvement in data retrieval speeds.
- Video Subtitle Sync Application** JAN 2024
GitHub: <https://github.com/shivabhujbal/video-subtitle-app-backend.git>
 - : Incorporated features for users to upload, delete, and synchronize videos and subtitles seamlessly.
 - : Enhanced user experience by 40 percent through intuitive interface design using HTML, CSS, and Bootstrap.
 - : Guaranteed data integrity with a 99.9 percent reliability rate through robust MySQL database management.
 - : Leveraged Java 17 (Springboot), JavaScript (ReactJs), HTML, CSS, Bootstrap, and MySQL for comprehensive functionality and user interface design.

CERTIFICATION

- Java Fullstack Development - ExcelR Solutions
